### Model specifications

|                                                            |                                             |
|------------------------------------------------------------|---------------------------------------------|
| External length                                            | External width                              |
| 12.192 m                                                   | 2.438 m                                     |
| External height                                            | Floor area                                  |
| 2.591 m                                                    | 29.7 m <sup>2</sup>                         |
| Indicative volume                                          | Preferred colour                            |
| 61 m <sup>3</sup>                                          | Green                                       |
| Shell interior before conversion (length × width × height) | Original shell cargo doors (width × height) |
| 12.032 × 2.352 × 2.395 m                                   | 2.340 × 2.292 m                             |

Maritime shell dimensions before conversion. Insulation, partitions and the personnel door determine the finished office's usable dimensions.

### Delivery & unloading

Transport and unloading are quoted using the postal code, access and unloading method. Requests are sent to suppliers via Quotbox.

Actual photos, condition and availability of the unit are to be confirmed in the supplier's offer.
